B-Tech to return to Mumbai for InfoComm India

InfoComm India - Stand C40

B-Tech AV Mounts will once again be showcasing a selection of their latest mounting innovations at InfoComm India later this month.

Staged in Mumbai from September 18th - 20th, B-Tech will be returning to the City's Bombay Exhibition Centre, presenting a range of solutions designed to bring speed, safety and precision to AV installations.

Along with a selection of System X and other solutions from B-Tech's collection of professional AV mounts, visitors to the show's C40 stand will see a range of pop-out solutions ranging from the installer favourite BT8310 and BT8312 to the new BT8308 and BT8309; which are designed for smaller screens. All of these solutions provide easy access to videowall displays - essential for installation and maintenance.

Also on display will be a 2x2 videowall mounted on B-Tech's BT8371 trolley. As well as hassle-free mounting, the BT8371 brings total mobility, allowing retailers or businesses to move their display wherever it may be needed.

A wide selection of menu board options, catering for all screens and sizes will also be on show, along with several standard brackets for single screen mounting.

Latest figures from InfoComm reveal that the Indian sub-continent generated \$6b worth of AV technology revenue - the fastest growing region in the world. With digital signage growth going hand-in-glove with India's economic upturn, B-Tech's range covers all requirements from a single screen to the largest of control room displays. B-Tech technology has already seen a big impact in Far Eastern markets as integrators discover the benefits of faster, professional installs and the versatility of our System X and System 2 solutions are perfectly suited to meet India's growing AV ambitions.

B-Tech International sales manager Jon Alway said: "Following our debut at InfoComm India last year, we very much look forward to returning to Mumbai. The excitement surrounding all things AV in the region is fantastic and doing business in India is always a pleasant and gracious experience. We look forward to welcoming customers old and new for what will, I'm sure, be a vibrant show."

Registration for the show is free using the following link: <http://www.infocomm-india.com/pre-reg-particulars.php?mode=main>
