INSTALLS

BT8380-FFB

BOLT DOWN FLOOR BASE

Designed to securely fix System X installations to the floor, the BT8380-FFB Bolt Down Floor Base attaches directly to any BT8380 vertical column to create a fixed position mounting solution with a minimal footprint. Using a 0.24" thick steel plate, this base is strong enough to support loads of up to 441lbs per column and is ideal for installations where floor space is limited, such as retail applications which require screens to be mounted closer to walls or shop windows.

SPECIFICATION

Max Load	441lbs
Plate Thickness	0.24"
Base dimensions	W: 9" D: 9" H: 0.24"

**No more than 220lbs should be mounted at a height above 47"*

FEATURES

- Small footprint is ideal for retail applications where floor space is limited such as in shop windows or for close to the wall displays
- Heavy duty steel capable of supporting substantial loads
- High-end aesthetic quality
- Ideal for retail applications where floor space is limited such as in shop windows or for close to the wall displays
- Can be used for large scale videowall installations in straight or curved configurations - ideal for applications such as control rooms
